

SCS

Ranks in the
TOP 50 PM
Firms in the Nation!

“ We are grateful to the entire SCS Team for all of the dedication and hard work that led to this accomplishment, and we thank our clients for the trust and confidence they continue to place in us. We will continue to work tirelessly putting the infrastructure, technology and organization in place at a corporate level to better serve our projects and clients and we will continue to aim higher for the duration of 2011. ”

+ CONSTRUCTION SERVICES

SCS Ranks as one of Nation's **Top 50 Program Management** and **Top 100 Construction Management** Firms by *Engineering News Record*.

Seville Construction Services, Inc. (SCS), a leading California based program/construction management firm, has been ranked in the Top 50 PM Firms and the Top 100 CM Firms in the United States by the industry's leading construction trade publication, *Engineering News-Record (ENR)*.

In its June issue each year, ENR publishes its ranking of the **Top 50 PM** and **Top 100 CM** Firms in the U.S., both publicly and privately held, based on agency PM/CM fees.

2010 Marked another milestone year for SCS. We have experienced approximately 20% growth which continues to solidify our position as a leader in the industry. Even in a down economy, we have managed to continue to gain market share. Our success is a direct reflection of the hard work of all our staff, collaboration with our partners in delivery, and the continued confidence placed in us by the clients we serve.

ENR
Engineering News-Record

We are proud to have made it to **#45** on the **Top 50 PM** Firms nationwide, and we also jumped up five spots to **#65** on the CM list this year. This is a significant accomplishment for the firm and reflects the growth of the firm in the past five years.

With several key large opportunities currently underway for 2011, SCS continues to pursue new large assignments. In addition, for the remainder of 2011, SCS will continue to focus our efforts in our core markets which include education, public facilities, transportation, water/wastewater and power along with an increased geographic presence in Central and Northern California.

Thank you to all of you who have been a part of our success!
