

SCS

Ranks in the
TOP 50 PM
Firms in the Nation!

“ We congratulate the entire SCS Team for all the dedicated contributions, and we thank all our clients for the trust and confidence they continue to place in us. We will continue to work tirelessly putting the infrastructure, technology and organization in place at a corporate level to better serve our projects and clients and we will continue to aim higher for the duration of 2011. ”

SEVILLE
+ CONSTRUCTION SERVICES

SCS Ranks as one of Nations **Top 50 Program Management** and **Top 100 Construction Management Firms** by *Engineering News Record (ENR)*.

Seville Construction Services, Inc. (SCS), a leading California based program/construction management firm, has been ranked amongst the Top 50 PM Firms and one of the Top 100 CM Firms in the United States by the industry's leading construction trade publication, *Engineering News-Record (ENR)*.

In its June issue each year, ENR publishes its ranking of the **Top 50 PM** and **Top 100 CM** Firms in the U.S., both publicly and privately held, based on agency PM/CM fees.

2010 marked another milestone year for SCS, which we have experienced approximately 20% growth which continues to solidify our position as a leader in the industry. Even in a down economy we managed to continue to gain market share. Our success is a direct reflection of the hard work of all our staff, collaboration with our partners in delivery, and the continued confidence placed in us by the clients which we proudly serve.

We are proud to have made it to **#45** on the **Top 50 PM** Firms nationwide, and we also jumped up five spots to **#65** on the CM list this year. This is a significant

accomplishment for the firm and speaks volumes about the growth of the firm in the past five years and all the wonderful work our staff is doing day in and day out.

With several key large pursuits currently underway for 2011, SCS continues to solidify new large assignments so the firm is positioning for even more growth in 2011. In addition, for the remainder of 2011, SCS will continue to focus our efforts in our core markets which include education, public facilities, transportation, water/wastewater and power along with an increased regional presence in Central and Northern California, as we continue to expand our geographic reach throughout California.

Thank you to all of you have been a part of our success!
