SCS MAKES KEY HIRES IN EDUCATIONAL DIVISION

LOS ANGELES, CA (May 2007) – Seville Construction Services, Inc., (SCS) make key hires in their educational division:

Kenneth Versand recently joined SCS as a Senior Project Manager for SCS Educational Division. Ken has over 20 years of experience as a Project Architect and Construction Manager of Commercial, Public Facilities, and on Educational Facilities in all phases of Construction, Pre-Construction and Post-Construction, including Design, Bids, Contract Award, Disputes Resolution and Facilities Management. Ken holds an MFA and BFA degree in Design and Construction Science from the University of California, Berkeley. Ken has completed projects such as the Fielding Institute of Graduate Studies in New York, the Fall River Museum, the University of California Berkeley Art Museum, and the New York University Medical Center, to name a few. Ken is currently serving as a Senior Project Manager on a K-12 program in Los Angeles where our team is managing modernization of over 100 schools sites, as part of a multi billion dollar bond program

Cristina Taruc has recently been hired as the Project Controls Engineer for SCS' Educational Division. Cristina offers over 17 years of experience in the A/E and construction industry. She has 10 years experience in cost, finance and accounting positions within leading A/E and program management firms such as DMJM,HOK Architects, Nadel Architects. Cristina has had extensive cost and finance program training and has participated as a key member of management teams responsible for managing large, highly complex programs which involved multiple funding sources, oversight committees and consultants. Cristina holds a Bachelor of Arts degree from the University of the Philippines. She has served as Cost Engineer on numerous commercial and industrial projects as well as having worked as a Project Engineer on the \$2.2 billion Los Angeles Community College Bond Project. Christina is currently involved in a K-12 program in Los Angeles where our team is managing modernization of over 100 schools sites, as part of a multi-billion dollar program.

Gabriella Pineda has recently been hired as the Senior Office Engineer for SCS' Educational Division. Gabriella has eleven years of experience in construction of higher educational facilities. During these eleven years she worked at the University of California at Los Angeles, Capital Programs where she assisted the Project and Construction Managers on the construction of new campus buildings and renovations. Gabriella is serving as a Senior Project Engineer in a K-12 program in Los Angeles where our team is managing modernization of over 100 schools sites, as part of a multi-billion dollar program.

Seville Construction Services (SCS), is a multidisciplinary planning, engineering and program/construction management firm known and respected for our work in facilities, transportation, aviation, water, energy projects. The firm offers planning, engineering, quality assurance/control and program/construction management for projects ranging from \$10 million to \$20 billion. SCS projects touch the lives of millions of people every day whether going to work, going to school, going home or drinking tap water. We provide the highest quality of professional services in the development, planning, design, and construction of aviation, transportation, facility, water/wastewater, and energy projects throughout the Western United States. From educational, and aviation programs to world seaports, bridges and water supply facilities SCS is involved in designing, building and managing the construction of some of the country's largest and most complex construction projects.

SCS is headquartered in Los Angeles, CA; the firm has offices throughout California, with experts in the fields of planning, engineering, program management, construction management and specialty technical services. For more about SCS, please visit us at www.sevillecs.com
