SCS PROJECT DIRECTOR ELECTED IN 2008 AS A BOARD MEMBER FOR CONSTRUCTION MANAGEMENT ASSOCIATION OF AMERICA (CMAA) SOUTHERN CALIFORNIA CHAPTER

LOS ANGELES, CA (October 2007) – Seville Construction Services, Inc., (SCS) Project Director, Roger Banelos gets elected in 2008 as a Board Member for Construction Management Association of America (CMAA) Southern California chapter.

CMAA is a national industry association whose mission is “to promote professionalism and excellence in the management of the construction process.” Founded in 1982, CMAA’s membership includes twenty-five regional chapters and more than 4,000 individuals, firms, and agencies throughout the country. CMAA represents a broad spectrum of the design and construction industry, including CM practitioners, public and private owners, design professionals, contractors, attorneys, insurers, services consultants, educators, and students throughout the United States and internationally. The Association’s headquarters are located in McLean, VA, a leading business center in the suburbs of Washington, D.C.

In July 2007, the CMAA Southern California Chapter’s sent out a call for nominations for Board seats. Requirements included a letter of interest, accompanied by a company letter of support, resume, and reference letter. The completed application went before the then current Board members for acceptance. The Board members confirmed nominations and elected Roger, as a Board of Directors Member and Chair of the Membership Committee.

Roger’s position is tasked with establishing a recruit membership committee for the 2007/2008 year as well as set the goals of the committee. The main goals and responsibilities of the position are to be involved in the overall CMAA activities as a Board Member as well as maintain and increase the overall membership of the organization. This includes selecting and making arrangements for conference at which CMAA will exhibit, participate at CMAA seminars, and recruit members.

“It is a great leadership position, at the heart of what our industry does and represent, and something that I was really interested in pursuing and being a part of”, said Roger.

Seville Construction Services (SCS), is a multidisciplinary planning, engineering and program/construction management firm known and respected for our work in facilities, transportation, aviation, water, energy projects. The firm offers planning, engineering, quality assurance/control and program/construction management for projects ranging from \$10 million to \$20 billion. SCS projects touch the lives of millions of people every day whether going to work, going to school, going home or drinking tap water. We provide the highest quality of professional services in the development, planning, design, and construction of aviation, transportation, facility, water/wastewater, and energy projects throughout the Western United States. From educational, and aviation programs to world seaports, bridges and water supply facilities SCS is involved in designing, building and managing the construction of some of the country’s largest and most complex construction projects.

SCS is headquartered in Los Angeles, CA; the firm has offices throughout California, with experts in the fields of planning, engineering, program management, construction management and specialty technical services. For more about SCS, please visit us at www.sevillecs.com
